Professional Summary

Project Coordination professional with 1.5 years of experience in SaaS implementation and project-driven environments, coordinating 5+ concurrent client engagements. Skilled in resource allocation, workload and availability tracking, utilization reporting, scheduling, risk and conflict flagging, and stakeholder communication. Experienced in building monthly resource contribution dashboards for leadership using Excel and Google Sheets. Available to relocate to Bangalore.

Education

B.E Computer Science and Engineering, *K.Ramakrishnan College of Engineering* 08/2020 – 05/2024 | Trichy, India
CGPA - 8

Experience

Project Coordinator, *QR Solutions Private Limited* 11/2025 – Present | Trichy

- Coordinate 5+ concurrent client engagements across Shopify, Salesforce, and WordPress, supporting project activities from initiation through deployment and post-go-live support.
- Prepare a monthly resource utilization and contribution dashboard in Excel/Google Sheets covering each team member's working hours, client task completion and website maintenance effort, and present it to leadership to support workload and performance decisions.
- Proactively identify and flag resource conflicts and scheduling overlaps, and propose reassignment options to project leads to maintain on-time delivery.
- Maintain project and resource data (tasks, milestones, dependencies, deliverables, blockers) in Zoho Projects, keeping records accurate and current.
- Assist in interviewing developer candidates for WordPress and Shopify projects, supporting resource planning and staffing.
- Act as the central point of contact for developers, designers, QA and clients on assignments, availability and priorities.
- Monitor risks, issues and dependencies, following up with stakeholders and escalating items requiring timely resolution.
- Prepare status reports, meeting minutes, action trackers and stakeholder updates; support Agile ceremonies, UAT, go-live and post-production support.

Implementation Associate, *Profit.Co Private Limited* 06/2024 – 11/2024 | Madurai, Tamil Nadu

- Conducted requirement-gathering sessions and translated customer business requirements into platform configurations.
- Coordinated with Customer Success, Product, Engineering, and Support teams to resolve implementation issues and maintain delivery progress.
- Tracked onboarding milestones, outstanding action items, implementation progress, and customer dependencies to support timely project completion.
- Maintained implementation documentation and coordinated customer follow-ups to address risks and resolve outstanding issues.
- Managed customer queries through ticketing systems and maintained SLA-driven communication throughout the implementation lifecycle.
